

## Windows and mirrors

### Mirror powerfold

JAG1557

#### WARNING

Do not drive the vehicle with the door mirror in the folded position, except when parking.

To assist parking by reducing the overall vehicle width, a selectable facility enables the door mirrors to be folded back.

To fold the mirrors, press both left and right-hand mirror selector buttons at the same time. The mirrors automatically stop in the fully folded position. Press both buttons again to unfold the mirrors.

Powerfold and unfold can be cancelled by pressing both mirror selector buttons again, while the mirrors are folding/unfolding.

**Note:** If the button is pressed repeatedly, a thermal cut-out will prevent damage to the vehicle's electronics. If this occurs, wait for five minutes for the cut-out to reset, before operating the button.

**Note:** If the thermal cut-out operates and leaves the mirrors in the folded position, the mirrors can be folded outwards manually.

**Note:** If the door mirrors are repositioned manually (or knocked out of position), the mirror head will be loose. To re-engage the mechanism, power the mirror to the foldback position, then outwards to the drive position.

**Note:** Mirror foldback will only activate when the vehicle is stationary or travelling at 20 km/h (12 mph) or less.

**Note:** The door mirrors will not unfold automatically when the Jaguar Smart Key unlock button is pressed, if they have been folded via the door mirror switches.

### Automatic powerfold

The mirrors can be configured to automatically fold when the vehicle is locked and unfold when unlocked.

**Note:** If the mirrors were folded using the switches, they will not unfold automatically when the vehicle is unlocked.

To select automatic mirror powerfold via the touch-screen:

From the main Home menu, select **Vehicle**:

JAG1422

- Select **Veh. settings**.
- The **Security** screen is selected automatically as the default.
- Select **Mirror fold back On** or **Off**.
